

2ND ANNUAL NATIONAL BACK-TO-SCHOOL EVENT

WEDNESDAY, SEPTEMBER 23, 2026
Open to all families and caring adults

One night. One plan.

Understand what's changing with AI & schoolwork

LIVE AND
ON DEMAND

AI Is Already Part of Your Child's World. Is Your Family Ready?

69%

High school students using
ChatGPT for school
assignments/homework

75%

Students using
AI tools
for homework

85%

85% of parents express
anxiety about guiding their
child's technology use

Source: College Board; Rand & Save My Exam; Lurie Children's Hospital

With AI now being broadly accessible 24/7, School Has Changed.
Homework Has Changed. Now, Parenting Needs to Change.

**Would you hand over the
car keys without training?**

AI is incredibly powerful, and so are our kids. This free virtual event
gives you a framework to guide your kids with intention, not fear.
You don't need to become a tech expert. You need a framework.

What Parents & Principals Are Saying:

"Parents play a huge role. If we set clear standards
together, we can avoid problems in the future."

— Efren Caliva, Middle School Principal

"Every parent should do this. This event made it
easy to talk to my child about AI with clarity
instead of guesswork." — Nicole Lyon, Parent

"I was encouraged by the parents who came and
their feedback...a great way to understand AI." |

— Brian Goessling, Exec. Dir., Restoration Academy

"I attended the first year's event and can't wait for this
year's event. It was an eye-opener then, and so much
has already changed." — Nu-Gina Rogers, Parent

**Spots are free, but space is limited.
RESERVE your FREE access today!**

Hosted by **DISCOVERING AI**, a nonpartisan, nonprofit 501(c)(3) organization
dedicated to equipping families to use AI intentionally, ethically, and creatively.
Discussion led by Amy D. Love, national authority on AI, Parenting, and Education
